DETAILED ACTION

Acknowledgement

1. This Office Action is responsive to the Amendment filed on 02/22/2007.

Response to Amendment

2. Applicant's remarks/amendment, filed 02/22/2007, have been fully considered and as a result claims 14-34, are now indicated allowable. The claims 1-13 and 35 stand cancelled.

Allowable Subject Matter

3. Claims 14-34 allowed.

Reason for Allowance

4. The following is an examiner's statement of reasons for allowance:

The prior art of record, in combination with other claimed limitations neither teaches nor renders obvious an apparatus having a frequency discriminator for obtaining a frequency error estimate of the difference between a reference frequency and the frequency of a STTD signal from first and second received sequences transmitted respectively by first and second antennae, and received by a receiving antenna, where each sequence has two sets of first and second intervals, of equal length, such that the contents of the second interval of the second received sequence are the additive inverse of the contents of the first interval of the second received

Art Unit: 2611

sequence, the frequency discriminator comprising:

a memory, operatively attached to the receiving antenna for storing the contents of the first and second sequences;

interval defining means, operatively attached to the memory to receive the first and second sequences of symbols, for dividing the received sequences into sets of first and second intervals;

conjugation means, operatively attached to the total sum adding means to receive the total sum of the second set of partial sums, for calculating the conjugate of the total sum;

multiplier means, operatively attached to the conjugation means and total sum adding means to receive the total sum functions and the conjugate of the received total sum for multiplying the received total sum functions and the conjugate of the received total sum thereby providing a correlation function.

Such limitations as recited in independent claim 14, is neither anticipated nor rendered obvious by the prior art of record.

5. Claims 15-34, allowed by virtue of their dependency to claim highlighted above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
